

AC Input	230V~50Hz 0.15A
DC Output	24V
Intensity	0.25A
Max. current	6W
Consumption	24,5W

Safety precautions

Do not exceed the rated operating parameters of the device.

In the case of pluggable devices, the socket outlet must be mounted close to the device and must be easily accessible.

Do not disassemble, repair, modify or touch the inside of the device.

Do not disassemble the housing.

There are no elements in the power supply which can be replaced by the user.

A damaged power cord must be replaced immediately by a qualified technician.
