5x5 matrix control unit

Audio matrix with 5-zone DSP. With 5 audio inputs and 5 audio outputs, it allows the broadcasting of announcements remotely, as well as the control and management of the public address system through the MX-555M control panel.

Each channel can be independently linked to the MX-555M control panel and the MX-555S volume control, as well as to the MX-501 paging desk.

- √ 3 AUX inputs with independent level adjustment.
- √ 1 MIC phantom 48V input with independent level adjustment.
- 1 media player input (AUX via mini-jack, USB, Bluetooth, FM tuner).
- √ 5 independent signal outputs for 5 zones.
- EMC priority input controlled by remote control.
- RS232 external control connector.
- ✓ 5 RJ45 connectors for MX-555S and RJ45 connector for MX-555M.
- Output and level indicator.

Technical characteristics

Power supply	100-240V AC 50/60Hz
Fuse	T1A
Audio sources	USB / Bluetooth V5.0 / Radio FM / AUX
Inputs	XLR (microphone) Phantom powered
	3 x AUX per euroblock
Sensitivity	Mic: -41dBV Line: -12.5dBV
•	MX-501: 4dBV EMG: -10dBV
Signal Noise / Ratio	Mic: 65dB Line: 73dB
Outputs	5 outputs per stereo euroblock
Output impedances	600 Ω
THD+N	<0.1%@1KHz
Phantom Power	+24V DC
Connection	RJ45
Frequency response (+/-3dB)	20Hz-20kHz
Audio attenuation during desk announcements	-30dB
Dimensions	483×177×44mm
Weight	1.76kg

EQUIPOS Y SISTEMAS MEGAFONÍA/INTERCOM ● PUBLIC ADDRESS SYSTEMS

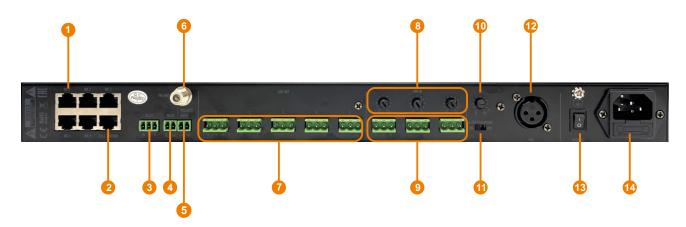

UNIÓN DESARROLLOS ELECTRÓNICOS

- 1. AUX input 3.5mm jack
- 2. Media player module

- 3. Output signal level
- 4. Active zones from desk

- 1. RJ45 connection for MX-555S (x5) and MX-500M panel* $\,$
- 2. RJ45 connection for desk MX-501
- 3. RS232 interface for MX-555M
- 4. External mute

- 5. Priority audio input (EMG)
- 6. FM antenna
- 7. Stereo audio outputs
- 8. Gain adjustment inputs
- 9. Signal inputs

- 10. MIC level adjustment
- 11. PHANTOM 24V DC power supply selector
- 12. MIC input**.
- 13. ON / OFF switch
- 14. AC 100-240Hz power supply input

*If 4 or less MX-555S units are used, the control touch panel can be connected to any free RJ45, except the one for connecting the MX-501 desk.

**When a message is broadcast from the microphone connected to the MIC input, it is broadcast to all zones, and all other outputs are cut off.
