

UW-T Technical key
UW-R Test receiver
UW-G Test emitter

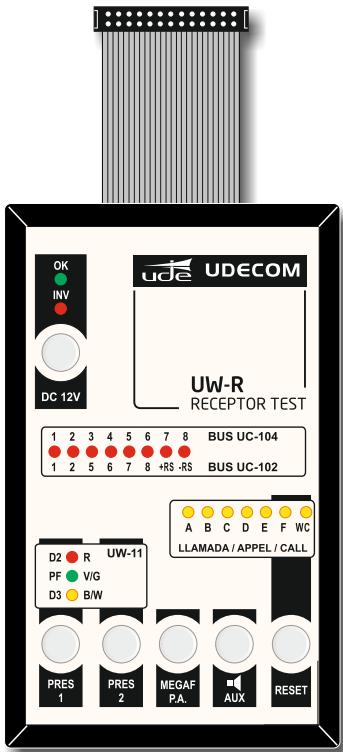

UW-T

Technical key

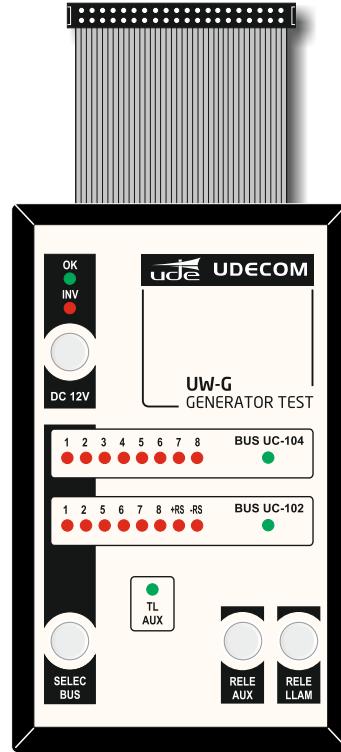

By plugging the UW-T to the UC-104 (room substation) or UC-102 (central station) equipment you will have full access to the technical mode menu configuration. This key is a tool for technical staff in configuration and starting up process.

UW-R

Receptor Test

UW-G

Generator Test

SYSTEM TEST

The UW-R and UW-G make up the UDECOM test kit, which can verify all bus connections all over the installation.

The test kit also could test the UC-104 peripheral equipments connected to a room substation. It makes an easy way to find and solve wiring problems.
